YOUR PROJECT

State in no more than 100 words the problem(s) your project is aiming to address

Reading eBooks in Nepal is difficult because most platforms need international payment, are expensive, or do not have Nepali books. Apps like Kindle and Scribd do not support esewa and are not affordable for Nepali students. Local apps also do not give rental options.

So, Pustakyatra aims to provide a simple Nepali eBook system where users can rent or buy books using esewa. It gives an easy reading experience with a clean design. This project helps Nepali readers access books in a cheaper and easier way.
